Dear Mr. McPherson:

Re: New Environmental Protection Agency (EPA) Lead Superfund Sites (EIS #TX-84-11-10-0022-50)

In response to your memorandum of November 11, 1984, staff members of the Texas Department of Water Resources (TDWR) have reviewed the above noted designation of three new sites for study and cleanup under the Superfund Program. The Department concurs with the designation of these three sites and recommends funds, as specified by the EPA, be allocated for three sites.

Sincerely,

Charles E. Nemir
Executive Director
